

Salvador Foundation Common Grant Application

This document contains the Common Grant Application to be submitted when applying for funding from the Salvador Foundation. Section I of the document provides general guidelines for what the Salvador Foundation will consider for funding. (Please read these guidelines carefully before submitting an application.) Section II contains the Grant Application. When submitting a Grant Application, please submit electronically to grants@salvadorfoundation.org

Section I: Salvador Foundation Guidelines for Grant Applications

The Salvador Foundation funds a fairly broad range of charitable activities aimed at making the world a better place. Funded programs may range from a large project to help impoverished people in Latin America to funding a single parent in the United States who can't afford clothing for her children.

Funding Guidelines for the Salvador Foundation

The following guidelines apply to any Grant being considered by the Salvador Foundation:

1. No funding will go to any organization which promotes directly or indirectly or through affiliated organizations the practice of abortion or the taking of human life for any reason. This restriction includes providing funding to an organization for an effort which is unrelated to abortion (or other life taking procedure) if that same organization also supports abortion through other funding sources.
2. No sporting activity will be considered for funding unless the participants are special needs children.
3. The Salvador Foundation does not fund "mission trips".
4. Preference will be given to organizations who are ****Public 501(c)(3) organizations**, or who work with The Salvador Foundation under an ***Operating Foundation Agreement** as defined below:

***OPERATING FOUNDATION AGREEMENT**

In most cases, The Salvador Foundation works as a team with other charitable organizations to achieve some mutual end-goal. This means that rather than simply issuing a Grant of money based upon a proposal, we work collaboratively with an organization to define goals and objectives, monitor performance and determine appropriate funding levels for success. If your organization is interested in working with this type of arrangement, please indicate that when you submit this form.

****PUBLIC 501(c)(3)**

Traditionally, the **Internal Revenue Service** classifies an organization described in Section 501(c)(3) of the Code as "private" unless the organization can **demonstrate that it qualifies as a "public" charity**. Unlike private organizations, which normally receive substantially all of their contributions from relatively few sources, such as a wealthy individual or corporation, and often rely on investment earnings as their source of ongoing support. A **public charity**, on the other hand, is either "publicly supported" (deriving a substantial portion of its financial support from the public) or functions to support one or more organizations that are classified as public charities. Because there are different rules that apply to public versus private 501(c)(3)'s, it is important to be able to identify whether an organization is a public charity or a private foundation. The Salvador Foundation requires written confirmation of an organization's status from the IRS unless it is a

In the event a Grant Agreement is issued by the Salvador Foundation as a result of this Application, the following conditions will apply. By signing and submitting this Common Grant Application, the applicant acknowledges his/her agreement with these terms:

If the Foundation Executive Staff approves a grant to an organization, the grant shall be funded only after the Foundation and the Applicant have entered into a written grant agreement (the “Grant Agreement”) or an Operating Foundation Agreement.

Return of Funds. If any part of the grant is used other than for the purposes specified in the Grant Agreement, the grantee must either retrieve the funds in question or return them to the Foundation. If the Foundation terminates funding of any project because of the failure of the Applicant to expend funds in accordance with the Grant Agreement, it shall be entitled to recover prior advances made to the grantee under the Grant Agreement.

Limits on Use of Funds. The grantee may spend the funds only for the project described in the Grant agreement and may not apply the funds to a different project or purpose, even if entirely charitable in nature, without the prior written consent of the Foundation. The grantee shall specifically be proscribed from using the funds for lobbying, political activity, or re-granting the funds to individuals or other organizations.

Anti-Terrorism Representation: The applicant certifies that it has not provided and will not provide support or resources to any individual or entity that advocates, plans, sponsors, engages in, or has engaged in terrorist activity; or to anyone who acts as an agent for such an individual or entity.

Reporting Requirements. If awarded, the Grant Agreement will require reporting of activities by the recipient consistent with the reporting requirements of the Salvador Foundation. The Foundation shall be granted the right to review the books and records of the Applicant, conduct audits or compliance reviews of the grantee and to observe the grantee’s procedures. If the reporting requirements of the Agreement are not met, funding under the Grant shall be suspended until such time as the requirements have been complied with, or, at the discretion of the Foundation, terminated.

By signing below, I certify that the information contained in this application is true and correct to the best of my knowledge, and that I agree to the terms listed above.
